

ENVIRONMENTAL POLICY STATEMENT

The actions of our organization and behaviour of our personnel have the capacity to impact on the land, air, waterways, fauna, flora and local communities in and around which we operate.

Wholecore Pty Ltd will strive to minimize the environmental impact of its operational activities and will endeavor to implement programs which offer long term improvement to the environment and benefits to the communities with which we interact.

Our responsibilities include contributing to the preservation of cultural and indigenous heritage, conservation of native flora and fauna, and protection of current and future land use opportunities.

Wholecore Pty Ltd will exercise these responsibilities by:

- Complying with Local, State and Federal Legislation and Regulations as well as Industry Best Practice;
- Training our workforce to share our corporate values, promoting understanding of cultural and environmental heritage and integrating progressive environmental management into planning and operational activities;
- Consulting and working with local communities to achieve sustainable development through mutual understanding of requirements and objectives and the sharing of our corporate knowledge and resources;
- Preferential selection of organizations, suppliers and contractors with whom we work, who share our values and adhere to our standards of environmental awareness;
- Using biodegradable drilling consumables wherever possible;
- Continuously improving our use and management of resources to minimize our impact on the environment through workforce and contractor participation, industry initiatives and research;
- Developing an Environmental Management System which outlines and defines accountabilities, objectives and targets.
